

## About Us

Millhaven Lodge is a community owned not-for-profit organisation. Our mission is to be a flexible, viable organisation that plans and provides integrated, responsive and individualised care to residents of our facility.

## Our Philosophy of Care

The staff of Millhaven Lodge strive to provide care that exceeds the expectation of the residents and their families. Each person is valued for their individuality and will be encouraged to attain and maintain their independence to the optimum of their ability. Every respect will be given to resident's choices regarding all aspects of their care, to ensure the quality of life and to fully comply with Aged Care Standards.

## Social Activities

Millhaven Lodge will be your home and you are free to continue all your usual social activities and hobbies, if able. A full activity program has been arranged for all interested residents to participate in, including concerts and bus trips. All residents are encouraged to offer suggestions about their social and cultural preferences.

## AGED CARE THAT FEELS LIKE HOME

Welcome to Millhaven Lodge. We pride ourselves on residents having a real sense of belonging and familiarity the moment they walk through the door. We have accommodation options to suit your individual care needs, including respite and dementia care. We have comfortable lounges where you can take in the surroundings and build close friendships with other residents.

“ We always know that Mum and Dad are in good hands ”
